2 sizes attached:
1 x 1.05 fl. oz. & 4 x 1.05 fl. oz.

Package Clamshell
for 4 x 1.05 fl. oz.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

ALMACENAMIENTO Y DESECHO

No contamine agua, comida, ni forrajes mediante el almacenamiento o desecho.

ALMACENAMIENTO:

Almacenar en un lugar fresco y seco. Siempre almacene los pesticidas en el envase original. Almacene lejos de alimentos y alimentos para mascotas.

DESECHO DE PESTICIDAS Y MANIPULACIÓN DE RECIPIENTES:

Recipiente no rellenable. No reutilice ni rellene este recipiente. Si está vacío: Tire a la basura u ofrezca para el reciclaje si está disponible. Si está parcialmente lleno: llame a su agencia local de desechos sólidos para instrucciones de eliminación. Nunca deseche el producto no utilizado en ningún desagüe interior o exterior.

KEEP OUT OF REACH OF CHILDREN

CAUTION / PRECAUCIÓN

MANTENER FUERA DEL ALCANCE DE LOS NIÑOS

PRECAUCIÓN

FIRST AID

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

PRIMEROS AUXILIOS

SI ESTÁ EN LA PIEL O EN LA ROPA:

- Quítese la ropa contaminada.
- Enjuague la piel inmediatamente con bastante agua por 15-20 minutos.
- Llame al centro de control de envenenamientos o a un médico para consejo de tratamiento.

Cuando llame a un centro de control de envenenamientos, o a un médico, o intente obtener tratamiento, tenga a la mano el envase o la etiqueta del producto. Para información sobre emergencias médicas o incidentes con plaguicidas, llame al 1-888-740-8712.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear long-sleeved shirt and long pants, socks, shoes, and waterproof gloves. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Do not apply this product around electrical equipment due to the possibility of shock hazard.

DECLARACIONES DE PRECAUCIÓN
RIESGOS PARA LOS SERES HUMANOS Y ANIMALES DOMÉSTICOS

PRECAUCIÓN

El contacto prolongado y frecuente con la piel puede causar reacciones alérgicas en algunos individuos. Utilice camisa de manga larga y pantalones largos, zapatos y calcetines (medias), y guantes impermeables. Lávese bien las manos con agua y jabón después de la manipulación y antes de comer, beber, masticar chicle, usar tabaco o ir al baño.

PELIGROS PARA EL MEDIO AMBIENTE

Este pesticida es tóxico para los peces y la fauna silvestre. No aplique directamente a cuerpos de agua. Evite contaminar el agua al limpiar el equipo o deshacerse del agua utilizada para lavarlo.

PELIGROS FÍSICOS O QUÍMICOS

No aplique este producto cerca de equipos eléctricos debido al riesgo de electrocución.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

See package insert for First Aid, Precautionary Statements, and Directions for Use

INSTRUCCIONES DE USO

No aplique este producto cerca de equipos eléctricos debido al riesgo de electrocución.

For Use In and Around: Commercial, Industrial, and Residential Buildings including Apartments, Garages, Food Storage Areas, Homes, Hospitals and Nursing Homes, Hotels, Meat Packing and Food Processing Plants, Motels, Restaurants and other Food Handling Establishments, Schools, Supermarkets, Transportation Equipment (Buses, Boats, Ships, Trains and Aircraft), and Warehouses

For Use in Commercial, Industrial and Residential Areas

VENDETTA® Plus Cockroach Gel Bait effectively kills German cockroaches and helps prevent reproduction through the effects of the insect growth regulator including inhibited development of nymphs and reproductive adults, sterility of adults, reduced insect fitness, behavioral changes, reduced egg production, deformed insects (twisted wings) and death.

For Household Use – In closets, basements, attics, recreation rooms, living areas, kitchens, bathrooms, dining rooms, pantries, food storage shelving, waste receptacles, etc.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

INSTRUCCIONES DE USO
Es una violación de la ley federal utilizar este producto de manera inconsistente con lo indicado en su etiqueta.

USE RESTRICTIONS:
- Do not apply to humans, animals, clothing, or bedding.
- Do not contaminate feed or food products, or food preparation surfaces, dishes, kitchen utensils or food containers.
- Do not use insecticide sprays on or near Vendetta Plus Cockroach Gel Bait.
- DO NOT APPLY ANY BAIT IN COCKPIT AREAS OF AIRCRAFT.

PESTICIDE RESISTANCE MANAGEMENT
Vendetta Plus Cockroach Gel Bait contains Group 6 and Group 7C insecticides. Any insect population may contain individuals naturally resistant to Vendetta Plus Cockroach Gel Bait and other Group 6 and 7C insecticides. The resistant individuals may dominate the insect population if this group of insecticides are used repeatedly in the same use sites. Appropriate resistance management strategies should be followed.

To delay insecticide resistance consider:
- Avoiding the consecutive use of Vendetta Plus Cockroach Gel Bait or other Group 6 and 7C insecticides that have a similar target site of action, on the same insect species.
- Basing insecticide use on a comprehensive IPM program.
- Monitoring treated insect population for loss of field efficacy.
- Contacting your local extension specialist, and/or manufacturer for insecticide resistance management and or IPM recommendations for the specific site and resistance pest problem.

Manufactured by: **MGK**, 7325 Aspen Lane North, Minneapolis, MN 55428

EPA Reg. No. 1021-2593
F2976-500
Rev. 0220s-0426

EPA Est. No. 1021-MN-2^{A}, 1021-MN-4^{V}
Superscript is the first character of the lot number.

GENERAL USE DIRECTIONS:

This product is for use only as a spot or crack and crevice treatment for the indoor control of German Cockroaches in residential areas (only in areas inaccessible to children and pets) and both food/feed and non-food/non-feed areas of institutional, warehousing, and commercial establishments, including warehouses, restaurants, food processing plants, supermarkets, hospitals, nursing homes, motels, hotels, schools, laboratories, computer facilities, buses, boats/ships, aircraft, trains, pet shops, and zoos.

Non-food/non-feed areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries, and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

Food/feed areas include areas for receiving storage, packing (canning, bottling, wrapping, and boxing), preparing edible waste storage, and enclosed processing systems (mills, dairies, edible oils, and syrups). Serving areas are also considered a food/feed area when food is exposed and facility is in operation.

Do not apply bait to areas where food utensils or food preparation surfaces may become contaminated. Care should be taken to avoid depositing gel onto exposed surfaces. If gel contacts an exposed surface, remove gel and wash exposed surfaces. During follow-up visits, inspect bait placements and re-apply when necessary.

Do not place bait in locations that are routinely washed, as bait will be removed by washing. Do not place treatments in locations where routine cleansing operations may transfer diluted bait to food or food preparation surfaces. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment where a possibility of shock hazard exists. Avoid contact with textiles and clothing, as bait may stain.

Avoid placing gel on fabrics or carpets since it may stain some absorbent materials. To prevent staining, exposed bait should be cleaned up immediately with a damp cloth or sponge.

Vendetta Plus Cockroach Gel Bait is for use in controlling German Cockroaches indoors. The pre-filled plastic reservoir containing Vendetta Plus Cockroach Gel Bait is intended for use with bait injector application devices common to the pest control industry. Inject into cracks and crevices, void spaces, and other locations where insects may harbor, live and breed. Concentrate the bait placements as individual spots at insect activity sites (only in areas inaccessible to children and pets).

APPLICATION RATES:

For light infestations of German Cockroaches, 4 - 6 bait points are recommended per 100 sq. ft. of treatment area. For heavy infestations of German Cockroaches, 12 - 24 bait points are recommended per 100 sq. ft. of treatment areas. Each bait point should equal about 0.25 to 0.50 grams of product. A spot approximately 3 mm or 1/8 inch in diameter equals 0.25 grams of product, while a spot approximately 6 mm or 1/4 inch in diameter equals 0.50 grams of product.

TO APPLY GEL:

1. Remove the cap from the nozzle, touch the top to the surface to be treated, and push down on the plunger. Apply bait as spots in cracks and crevices. Recap the dispenser after treatment is completed.
2. Store in a cool, dry place.
3. Do not apply gel to areas that have been recently sprayed with insecticide, and do not spray insecticide over gel, as this may cause the bait to become repellent.
4. The bait will adhere to non-greasy or non-dusty surfaces and will remain pliable and palatable to German Cockroaches as long as it is visibly present.
5. A visual inspection of bait placements is recommended at one month after the initial treatment. Reapply when bait is no longer visibly present, according to the level of infestation. Replace bait before it is completely consumed to keep German Cockroaches returning.

APPLICATIONS IN AIRCRAFT:

DO NOT APPLY ANY BAIT IN COCKPIT AREAS OF AIRCRAFT. Application within passenger areas of aircraft is limited to crack and crevice treatment only. Apply Vendetta Plus Cockroach Gel Bait in areas between elements of construction (such as areas under sinks, openings around pipes, under shelving, where shelving meets other shelves or the wall, areas between and around microwaves, where support braces attach to the main structure and where seats are attached to the floor). Use 12 - 24 bait placements per 100 sq. ft.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE:

Store in a cool, dry place. Always store pesticides in the original container. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

ALMACENAMIENTO Y DESECHO

No contamine agua, comida, ni forrajes mediante el almacenamiento o desecho.

ALMACENAMIENTO:

Almacenar en un lugar fresco y seco. Siempre almacene los pesticidas en el envase original. Almacene lejos de alimentos y alimentos para mascotas.
